# 'Make it'

'Speedy Snail'

Snails aren't known for being fast, but this one is super quick to make!

You will need,

- Thin Cardboard
- Ruler
- Glue
- Black pen
- Scissors

How to make

- Choose one of the coloured strips and fold in half.

- Choose 3 more strips, leave one full size, cut one a bit smaller and the third one smaller still.
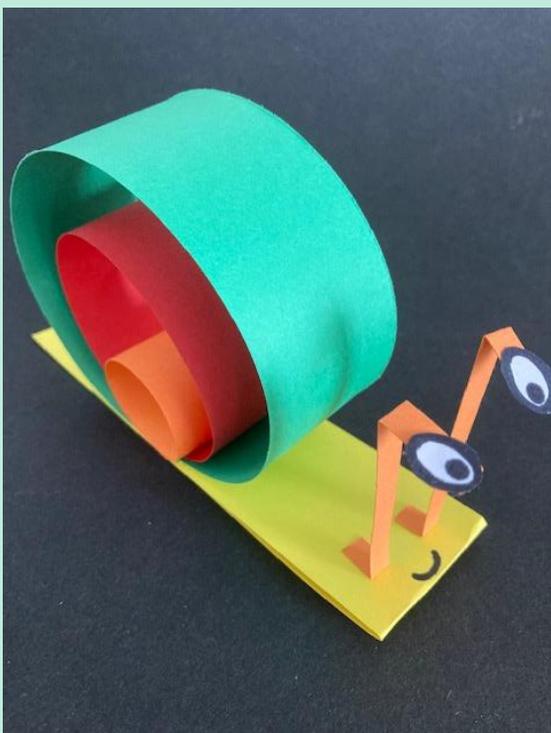

- Curl the strips into circles and fix with glue.
- <u>Hint</u> – Hold the join with your fingers for a minute to make sure the glue has dried.

- Take the circles and place them inside one another.
- Take the folded strip and staple the circles to it, as shown.
- NOTE - We used the stapler, but you can do this with glue if you use a clothes peg to hold all the pieces together as they dry.

- Using two narrower strips of card.
- Fold them into a long 'Z' shape.

- Nearly done!
- Stick the eye stalks you have just made onto the body of your snail.
- Use the black pen to draw on eyes and noses.
- Speedy Snail is so quick to make, why not make a family!!!
